## NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed the move away from the 'Net Promoter' scoring methodology to a simpler 'Percentage Recommended' and 'Percentage Not Recommended' method.

The percentage measures are calculated as follows:

Recommended (%) = 
$$\frac{\text{very good} + \text{good}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

Not Recommended (%) = 
$$\frac{\text{very poor} + \text{poor}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

For further information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here:

## Not Recommended

- ✓ *Because the staff on reception are a waste off time and never tell the truth*
- ✓ *Yes,it's has be come a total shambles, because nothing is followed through, writen lettegr ( emils)not acted on, re guarding complaints. Lettes address with Private & confidential,( to doctors) opened by the staff that surgery is in need an overhaul. Please don't contact me again .what I've said it's*
- ✓ I have found it impossible to get an appointment with a GP and have been dealt with by econsult forms, emails and telephone calls. During the last call, the doctor spoke over me the whole time and wasn't interested in anything I had to say. I have now had to turn to paid support outside of the NHS
- ✓ *Because she couldn't get blood n when she took needle out blood went everywhere*
- ✓ I was not called to let me know that my appointment was cancelled so I git there at that is when they told me to just call up tomorrow morning to re book my appointment

## Passive

- ✓ Appointment was fine, booking was a nightmare. It says on your phone message to book online on your website, but doesn't say what your web address. Online search takes you to a generic NHS site that just takes you round in circles.
- ✓ *Little or no follow up of problems, especially if your elderly. Some rude and unfeeling doctors & staff. Like winning the lottery if you get someone who gives a poo*
