

# **PENCESTER SURGERY PENCESTER HEALTH**

**Pencester Surgery and Pencester Health are seeking approval to merge from the CCG**

## **Why?**

**We have tried, unsuccessfully to recruit more GPs due to the current nationwide shortage. The partners have explored all options and have decided that a planned merger of the two practices is the best way to provide a continuing high level of healthcare for our patients now and in the future.**

## **What could this mean for you?**

- **Access to a bigger, more varied clinical team.**
- **Pencester Surgery will be expanding to accommodate all staff on the one site.**
- **A secure GP practice for the continuation of your healthcare now and in the future.**

**We view this as a positive opportunity and hope that you, our patients, will support the practice in working to improve your healthcare experience.**

**If you have more questions about this we will be holding a drop-in clinic on Monday the 15<sup>th</sup> of October 2018 of October 2018 at Pencester Health between 9am and 1pm and another on Thursday the 18<sup>th</sup> of October 2018 at Pencester Surgery between 9am and 1pm**
